

Relative and differential pressure switch type 610

Pressure range

-1 ... -320 mbar / 1 ... 500 mbar

Type 610 pressure switches are especially suited to the monitoring of non-flammable gases in general industrial equipment.

Exemplary accuracy is maintained throughout the high pressure range of this switch.

- High accuracy (especially the upper pressure ranges with 17 ideally designed pressure range incrementations)
- Ease of accurate adjustment by customer
- Reproducibility of switching points up to $< \pm 0.1$ mbar
- Rugged mechanics with high operating reliability and switching capacities up to 10 A
